

2025 SELECT HM FORMULARY

The Select HM Formulary is a list of generic and brand-name drugs which may be covered by your prescription drug plan. Generic medications are listed in lower case letters and brand name medications are CAPITALIZED. Most prescription generic drugs are formulary, even if not listed.

Things to note about the Select HM Formulary:

- **Formulary excluded products are not covered**
 - Formulary excluded medications and supplies are not covered unless an exception is made through the prior authorization process for medical necessity.
 - Refer to pages 6-8 for a listing of formulary exclusions.
- **What to do if your drug is a formulary exclusion**
 - Discuss formulary options with your doctor.
 - If formulary options are not appropriate; you, your doctor or authorized representative may contact FairoRx at 833-464-9600 to initiate the prior authorization process.
- **Inclusion on this list does not guarantee coverage**
 - Certain medications have specific criteria that need to be met before they will be covered.
 - Certain medications have specific limits in place.
 - Some medications listed may not be covered under your prescription drug plan.
- **Formulary changes**
 - Brand name drugs will become non-formulary (non-preferred) when their generic equivalents become available in adequate supply.
 - Drugs may be added or removed from formulary during the year. These changes will be posted on the member portal. You may also contact FairoRx for an updated formulary.

Questions: Contact FairoRx member services at 833-464-9600.
